Electrical Engineering Department

COEP Technological University (COEP Tech)

COEP Technological University (COEP Tech)

College of Engineering Pune (COEP), the third oldest engineering college in India, was established in 1854. It is one of the premier engineering institutions in the country and consistently been ranked high by various independent surveys on Technical Education in India. It is the Lead Centre under the Technical Education Quality Improvement Programme (TEQIP) assisted by the World Bank. The institute has around 3500 students on roll pursuing undergraduate, post graduate and doctoral programmes in various disciplines of engineering. The curriculum is designed to enhance academic experience through opportunities like internships, study abroad programmes and research facilities. The hallmark of COEP Tech education is its strong and widespread alumni network, support of the industry and the camaraderie that the institute shares with several other institutes and universities.

Electrical Engineering Department

The Department was established in 1932, for UG course and the PG programs were started in 1952. At present the department has three PG programmes. It has 170 years long history of technical education. Electrical engineers produced by this department have contributed to industrial development at national and international level. A few indigenously developed laboratories set ups are attracting the attention of the elite institutes including IITs. The faculty believes in high quality teaching and is actively involved in Consultancy projects, conferences, and research publications. The department is also has a Center of Excellence in Smart Renewable Energy Systems (CoE-SRES).

Objectives of the Industry Meet

- To exhibit current ongoing UG projects and research facilities of the department.
- To have interactions with the industry experts and know about the current trends in the industry.
- To strengthen the bond with industry.
