Department of Applied Sciences & Humanities

Language Laboratory

Department of Applied Science and Humanities proudly boasts a state-of-the-art Language Laboratory to hone the language skills of engineering students across all disciplines. In line with the New Education Policy, the course Communication Skills offers a comprehensive learning experience through innovative teaching methods during theory and practical sessions. Activities like group discussions, role plays, presentations, and business pitches provide a conducive platform to explore the students' language competence. The technocrats of this institute are wrought at the language laboratory in such a way that they become a patient listener, an effective speaker, and embodiment of the ideal civilians.

The laboratory has procured Language Lab Software worth rupees 1,77,000/- from Wordsworth- English Language System, Gandhinagar, Gujrat. The language lab software proffers holistic courses to cater to the tailored language needs of the learners. The students of vernacular backgrounds get ample exposure and abundant opportunities to flourish as fluent speakers and professional communicators. The student-centric and engaging sessions make the language-learning process more natural and fascinating.
