**THE DIRECTOR'S REPORT
GRADUATION CEREMONY OF THE TWELVEVETH BATCH OF B. TECH. AND
FOURTEENTH BATCH OF M.TECH. GRADUATES
(YEAR 2017-18)**

Honourable Chairman, Board of Governors of the College of Engineering Pune, Dr. F. C. Kohli, distinguished Chief Guest, Prof. Nitin Karmalkar, Vice Chancellor, Savitibai Phule Pune University, Members of the Board of Governors, Members of the Academic Senate, all the graduating students and their family members, faculty, staff, students, media persons, ladies and gentlemen, on behalf of COEP, I take this opportunity to welcome you all on the occasion of the 12th graduation ceremony at COEP.

Today, a total of 1114 students are being awarded passing certificates of which 780 are B. Tech. in 10 engineering disciplines, 334 are M. Tech. in 24 specializations. I congratulate all of them for their success and for making their parents and us feel proud.

I am glad to present before you a brief report on the recent achievements of the institute. As its rightly said that COEP stands for “College of Everything Pune”, the institute has been constantly pursuing excellence in both academic and non-academic front. While Experienceing Engineering and Experimenting with Engineering we commit ourselves to develop technologically superior manpower with social concern.

Continuing the legacy of being “BIG on Heritage” and “BOLD on Technology” in the country, over the last decade with the Vision of Board of Governors of COEP, our education system has evolved to reach and hold a unique position of pride in the technical education system in the country. This transformation for providing quality technological and scientific education and an environment conducive to new and path breaking research and development in frontier areas of engineering, technology and science with an excellent Governance model is not only acknowledged by the State Government but also by the Central Government. As a result we are bestowed with the responsibility of being the Mentor Institute under the AICTE's 'Margadrashan' programme for 10 Mentee Colleges and under TEQIP-Phase-III for 2 Institutes namely SGS Institute of Technology and Science- Indore-Madhya Pradesh and Manipur Technical university, Imphal. The state government has allotted an additional land of 28 acres for the expansion of the institute.

The institute is acclaimed as one of the leading institutes of the country by various industry bodies such as NASSCOM, CII and FICCI and was ranked at the 45th position amongst top 100 institutes under Engineering Category and 96th position amongst top 100 institutes under Over all category competing with IITs and NITs by National Institution Ranking Framework (NIRF) 2018. The pursuit of technological excellence in a highly collaborative environment is the hallmark of COEP.

An elite institution of reckoning in the country today has influenced the lives of those that entered its portals. As of now, COEP has 13 academic departments and 2 Centers of excellence namely Signal and Image Processing and Smart Renewal Energy Systems supported by TEQIP. The Institute offers 10 Under-graduate courses in engineering and 24 Post-graduate courses in engineering, besides Ph.D. degree programmes in all the disciplines and One year PG Diploma courses in ERP and Additive Manufacturing. COEP has more than 4500 students enrolled to its various courses. COEP, today, has 242 regular faculty including Professor Emeritus of which 136 possess PhD degrees and many are working towards it. In addition there are 84 reputed experts from industry as Adjunct Faculty to cater to the needs of all our programmes. All the 9 eligible undergraduate and 17 post graduate programmes run by the institute have recently been accredited by the National Board of Accreditation in the new outcome based tier-I format earning the honour of being the only institute to have achieved this feat in India so far.

All undergraduate, postgraduate and Ph.D. students get full opportunity to participate in co-curricular and extra-curricular activities leading to a holistic personality development. The faculty members of the Institute are encouraged to undertake sponsored research and industrial consultancy and always look forward to a healthy and productive interaction with the industry. Students and faculty are encouraged to make use of MOOCs and other online resources such as NPTEL, Coursera, Edx, PurdueNext, etc.

A wea beat of COEP, it has remained vibrant throughout the year with a mélange of events, New milestones are set, while Experimenting with Engineering in every direction throughout their journey at COEP, our students have also bought many accolades to the institutes, won various awards and scholarly recognitions, living it up to the legacy of the 164 years old institute.

We have a vision not just for our institute, but for the nation and the students are carrying ahead the same legacy. We want students to graduate from this place and give their best to

the Society. Our aim is to provide them with all necessary infrastructure and knowledge to 'ignite' these young minds and empower them for a sustainable future. Each small step in that direction matters to us. The success of our students on every front is truly an amazing story of how team work and synchronization can be best nurtured at COEP.

Be it their success in different competitive examinations, establishing their startups or their victory at BAJA, Robocon, Sparkle and other technical and non technical events, with such conviction the students have shown that there is no place for complacency in our strides towards excellence. These are the one who have made us proud. Simply setting an example of "Elevating from Ordinary to Exemplary".

The year 2017-18 brought along with many accolades for the institutes and we are proud to mention some of the major awards and recognitions received by our students and faculty.
