

🌍 Another milestone in COEP Tech's global journey! 🚀

We are thrilled to announce the launch of the Europe Chapter of our COEP Alumni Network in Munich—further strengthening our ever-growing global community of innovators, leaders, and changemakers.

With 100+ alumni joining in hybrid mode (online + offline), the event saw participation not just from Munich, but also from Graz (Austria), Zurich (Switzerland), and Hamburg (Germany). This overwhelming response truly reflects the deep-rooted bond COEPians share with their alma mater.

During this journey, we also discovered that 150+ COEP Tech alumni are based in the UK—a testament to our strong international presence! Stay tuned as we work towards launching a UK Chapter soon.

These global alumni chapters play a pivotal role in mentorship, knowledge-sharing, and fostering collective growth, shaping the future of technology and innovation worldwide. A special thanks to our Alumni President, Mr. Bharat Gite, for his leadership in making this initiative a reality, and to every COEPian who contributed to this milestone. We also extend our gratitude to Mr. Anup Sable, Member of COEP Tech Alumni Association for his presence and support at the meet. Here's to strengthening the COEP Tech's global family, one chapter at a time!
